

**REMARKS**

The present amendment corrects an inadvertent minor typographical informality in claim 55. Specifically, the last line of claim 55 as originally filed recites "heating the semiconductor film in a second stage by switching on/off the light source in a pulse form with a cycle of one second or longer." Claim 55 has not been amended during prosecution and is intended to be in original form. However, due to an inadvertent typographical error, in the *Amendment* filed February 3, 2006, "lamp" was added before "light source." The present *Amendment* corrects this error by removing "lamp" before "light source" in line 10, which is consistent with the positive recitation of "a light source" in line 8.

If the Examiner feels that any further discussions about this case would be beneficial, the Examiner is invited to contact the undersigned.

Respectfully submitted,

---
